WP3

WP4

Review comments

Technical review (December 2017):

- Deliverables and milestones – adequate and on time
- Work well implemented and organized
- Dissemination and communication:
 - Policy makers at EU and national level
 - Enhance collaboration with other on-going projects

SAB comments Galway:

- How to approach policy issues in different countries (IISA scenario not enough).
- Policy instruments to implement results, which are they?
- ES basis – unclear (e.g. carbon)
- Better integration of WPs.
- Too much conformism in alternative FMM design.

Work ahead – Tu-We-Th

Time	Item
09:00-09:30	Opening & Aim
09:30-10:00	WP1: Key findings concerning stand level aFMM - MS ₃ , D _{1.2}
10:00-11:15	WP3: Report of D _{3.2} - Progress towards MS ₁₂ and D _{3.4}
11:30-12:15	WP2/3: Report from the Upscaling Task Force
12:15-14:45	Potential scientific publication: WP ₁ WP ₃ and ES experts
14:45-17:00	Stakeholder assembly / WP ₄ : Stakeholder workshops (MS _{18/19}) Workshop in Dresden (May 2019) + scientific publication in local language
17:00-17:30	Travellab preparatory session
17:30-17:45	Project Steering Committee meeting
20:00	Dinner
7:30-17:00	Travellab
09:00-10:30	Travellab workshops: WP ₁ WP ₂ WP ₃ WP ₄ ES experts
10:30-11:00	Travellab reports
11:15-11:45	WP ₅ : Local dissemination activities (done and planned)
11:45-12:30	Scientific Advisory Board: Observations, warnings and hints
12:30-13:30	Lunch
13:30-14:30	Wrapping up: next steps Next cross-project meeting – Padova
14:30 -15:30	Preparation of D _{3.4} (ES experts – WP ₃ leaders)

Aims of the meeting

1. Common understanding of focus and improvements of landscape level FMM analyses for D3.4
2. Lessons learned from stakeholder workshops (MS18/MS19). and how to proceed.
3. Plan for publication – scientific and national
4. Preparedness for scientific workshop in September (MS13), European workshop in May (MS20), XXV IUFRO World Congress in September 2019 (IUFRO).
5. Upscaling work clarified.
6. Learn from the Travellab exercise.
7. Directions from SAB.
